

Support a worthy project !

International Christian Centre
HOME FOR THE NEEDY
"Giving hope to the hopeless..."

With your help...

...children in Africa will get a home and a school

Through the ministry of **International Christian Centre For Missions** (ICCFMissions) in Nigeria more than 400 children receive refuge, shelter, a home, food, clothes and daily care.

Together with other children they get excellent education in the ministry's own Christian school.

A big challenge is that the rented apartments in which the children are staying are already congested and the house rents are being increased constantly. It is the same problem with the rented buildings used for the school. Because of that, many children of the orphanage home had to be accommodated at another place far away which results in considerable additional expenses for their daily transportation to school and back.

For this reason we urgently need to build own houses and an own school for the children.

A piece of land has already been bought for this purpose and now the building work can begin.

At the moment we need at least 25 000 Euro/ USD 30 500 / £ 20 000 for the construction.

Please help with your donations to give hope to these children and to implement this project quickly!

Thank you very much for your support!
